

Premium Content Blog

- [Installation on Docker](#)

Installation on Docker

Getting Started

Start your blogging career with this app that allows you to charge users on a subscription basis, for your premium content. Simply install the app, add your Stripe keys, then deploy to the Cosmic App Server (or your chosen hosting solution). [Sign up for Cosmic JS](#) to install and deploy this app in a few minutes.

```
git clone https://github.com/cosmicjs/premium-content-blog
cd premium-content-blog
npm install
```
